

Art 21 Artists

View an artist's video interview on Art 21/PBS online (or in school library on CD's) whose work inspires you, and then find it in a gallery or museum as part of your next journal. Your journal response should include description and response to the artists' work, specifically to the

- theme explored by the artist
- sources of inspiration of the work
- research conducted to generate an original response to that inspiration
- evolution of their working method
- final product(s)
